POSMATE

Making IT POSsible

Kounta teams with POSmate

For a number of years, POSmate has been searching, not just for the best Australian Point of Sale system that could meet the ever changing needs of our vast client network, but also an innovative partner that is continually listening to its clients and developing its solution according to their needs.

We’re excited to say we’ve finally found it! POSmate are proud to announce their partnership with Kounta in South Australia and the Northern Territory.

Let POSmate show you how Kounta is the solution and key to your business success. Like to know more, want to discuss this or have a demonstration of this superior POS software, just call us anytime on +61 406 103 016 and mention “Kounta”.

kounta™

~~Point~~ of Sale

Platform

Kounta is

A web platform for stores to:

MANAGE	EXTEND	CONNECT
their stores on anything	with powerful add-ons	with staff, partners & customers

Problem

CASH
Clerk $ Cents
57 46
Sub Total $9.58
Tax $0.67
Grand Total $10.25
PAY

Problem

Legacy is out-of-date but still in use

Expensive to implement and manage

Disconnected merchants and customers

?

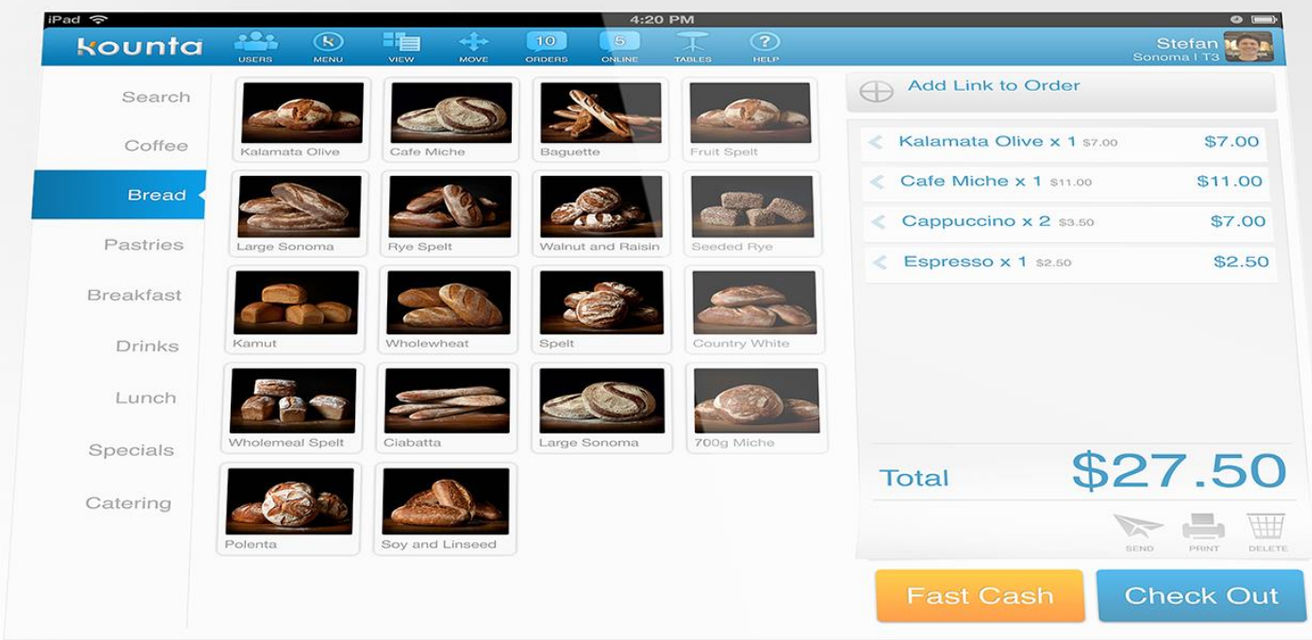
Challenge

The future of POS is online

The future of online is mobile

Enter

Kounta™



Kounta Intro

Don’t let Kounta’s simple and intuitive exterior fool you. Under the hood of Kounta's cloud based Point of Sale software, you’ll find some of the most robust store management tools available. Excelling in hospitality, Kounta is equally at home in retail settings because it’s flexible to all different types and sizes of business. Running things couldn’t be easier: the POS system is powerful, yet easy to use.

Kounta works with you and whatever you’re running on, too: iPad, Android, Mac, PC or even legacy POS hardware. It’s the alternative to the alternative to legacy systems, a fully featured, always available, industry specific mobile POS, that works for you.

POS

Manage

Kounta’s cloud based Point of Sale software runs in a browser, iOS and Android both on and offline, on popular devices like iPads, Android Tablets, Macs, PCs and even on existing POS equipment stores have already invested in.

Extend

Kounta comes with powerful new features, services and add-ons for all different types and sizes of stores.
The Kounta platform with a modern RESTful API allows companies and developers to integrate with any online or mobile services or even build their own.

+ See More Add-Ons

Multi Site

Keep an eagle eye on all of your business and stores, in real-time. Sales, inventory and customer data is available instantly for timely decisions. People (with permissions) can access and manage one store or many to update products, prices, price lists and stock levels across stores, instantly. It has never been easier to rapidly deploy and scale up.
